Assistant Professor of Geographic Information Science at Clark University

Clark University invites applications for an assistant professor position in Geographic Information Science (GIS) to begin Fall 2010. This is a three-year term appointment with the possibility of renewal. We are particularly interested in candidates with a specialization in one or more of the following GIS application areas: public health, environmental justice, food security, and humanitarian assistance. A major responsibility will be to teach core courses in GIS (including both raster and vector analysis) and to advise students in Clark's Master of Arts program in GIS for Development and Environment. PhD. or equivalent in a relevant discipline is required by May 2010. Knowledge of programming languages used in GIS, experience with geospatial analysis and online mapping applications are also highly desirable.

This position will serve the needs of both the Department of International Development, Community, and Environment (IDCE) (www.clarku.edu/departments/idce) and Clark's School of Geography (www.clarku.edu/departments/geography). Applicants must show a commitment to teaching and working collaboratively within an interdisciplinary program. A detailed statement of interest, curriculum vitae, and a list of references should be sent via email attachment to Jackie Murphy (jmurphy@clarku.edu) or via postal mail to the GISDE Search Committee, IDCE, Clark University, 950 Main Street, Worcester, MA 01610. Review of applications will begin January 15 and will continue until the position is filled. AA/EOE. Minorities and Women are strongly encouraged to apply.
